

THE CLAY CITY TIMES.

50 Cents a Year in Advance.

We are here to help Clay City, the Surrounding Country and Ourselves.

J. E. Burgher, Publisher.

VOL. 10.

CLAY CITY, KY., THURSDAY, JUNE 22, 1905.

NO 25.

Mrs. D. O. Bloom is recovering from a most severe attack of biliousness.

To day is the longest day of the year, and naturally the nights are the shortest. Owing to their extreme heat, shorter days and longer nights would have been appreciated better the past week.

Our advertisers have been encroaching on our reading space for some time until this week we find it necessary to get out a six page issue. This is for a time only, but it shows to the public that we are willing and ready to enlarge and improve the paper at the very instant the business will justify it.

Dock Clark and wife, of Kansas City, Mo., are visiting his brother, George W. Clark, of Vaughn's Mill and other relatives in this county. Mr. Clark remains very fleshy and it seems that he has five sons that have inherited his obesity for the five aggregate 1,200 pounds, an average of 240.

Farm Wanted.

We are in receipt of an inquiry from a gentleman wanting prices and terms on a farm within one mile of Clay City preferred. Any one having such property for sale, might list the same with us to advantage. The inquiry comes from a gentleman in Virginia.

First Train 20 Years Ago.

The first train ever run to Clay City arrived here just twenty years ago. It was then the Kentucky Union R. R. and was operated under that name for several years. Time since then has brought many changes for Clay City and Powell county whether for the better or worse.

July 4th.

Remember July 4th will be a big day for Clay City. The Band boys, who so successfully managed the picnic last year, has the entertainment in charge again in this year, and the success of last year promises to be repeated again. The boys have engaged the flying Dutchman which will be on hand, arriving here June 30 and remaining with us five days only, leaving town July 5. A good crowd will be present, and a good picnic is assured on this day.

Quality vs. Quantity.

Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol Dyspepsia Cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutrient properties to the blood and tissues. This builds up and strengthens the entire system. Kodol cures Indigestion, Dyspepsia, Belching, Sour Stomach, Weak Heart, etc. Kodol Dyspepsia Cure for what is sometimes called America's national disease—Dyspepsia—is destined to eventually work a wonderful and lasting benefit to sufferers from this distressing and mind harassing condition. Sold by M. Rose.

Resolutions Adopted

By the Sunday School Convention of Powell county, at Stanton June 14th.

Resolved:

1st. That we commend the people of Stanton on the loyal support given this convention; and further, that we extend to them our sincere thanks for the cordial way in which they have thrown open their doors to those from a distance.

2nd. That we express to Bro. W. J. Vaughn our hearty appreciation of the excellent service done us as Field Worker, and that we invite him to return to us next year.

3rd. That we as S. S. workers in the county encourage a campaign of house to house visitation.

4th. That we organize each magisterial district.

5th. That we make Powell a banner county.

6th. That we strive during the ensuing year to impress the people with the importance of our annual County Sunday School Convention.

7th. That a copy of these resolutions be published in our county papers.

Respectfully submitted,
Committee.

Captain Thomas Dead.

Capt. J. M. Thomas died at Ford last Tuesday of kidney trouble, aged 71 years old. He owned extensive milling interests at Ford and other places, leaving in all an estate worth \$800,000. Deceased was of the firm Tarr, Thomas & Co. which owned and operated the large saw mills in this city twenty years ago.

He was a minister of the Christian church and a veteran of the Confederate army, and was a man noted for his liberal donations for church purposes and charitable institutions.

Wheat versus Tobacco.

An exchange thinks there is more money for the farmer in wheat at \$1 per bushel than in tobacco at \$200 per acre, considering the labor and drain on the land and the difference in the two crops. Wheat it is pointed out is easily and quickly put in the ground, and then there is no more labor or trouble with the crop until the harvest and threshing season, which with modern methods is a light and comparatively cheap job. In contrast is the months of hard labor and drudgery and exposure to all sorts of weather and heavy outlay for help and hand hire, and the quick exhaustion of the soil in the production of tobacco. After summing up the expense and receipts of a heavy yielding tobacco crop the profit is placed at not more than \$3 per acre. That's about the correct figure, and when you read of such big money being made in growing tobacco, just set it down as coming from sources not posted as to the cost in money, soil, labor and back grease of a tobacco crop.

The worst enemy the country has is the man who finds nothing good in anything but himself and his, and who suspects every one but himself.

Planting Catalpa.

The Louisville and Nashville railroad planted ten groves of catalpa last year, part of these being in Kentucky, one at Wilder's Licking river, near Newport. The object is to secure timber for cross ties and telegraph poles for future use, the catalpa being of remarkably rapid maturity, increasing one inch in diameter each year in this latitude, and double this rate in the Gulf region. The wood is specially suited for railway use, being so durable that cross-ties of catalpa have endured for one third of a century, and during the past ten years under heavy traffic.

What's a Sure Thing in Kansas.

People of Kentucky who have been used to raising plenty every year but are thinking of moving West, should read the Kansas Farmer. In a recent issue of that paper, the editor says: "I have lived in Kansas only twenty-eight years, but that has been long enough for me to learn that a crop here is never a cinch until you have it harvested, sold and all spent."

Our deeds still travel with us from afar, and what we have been makes us what we are.

The Salve That Penetrates.

DeWitt's Witch Hazel Salve penetrates the pores of the skin, and by its anesthetic, rubefacient and healing influence it subdues inflammation and cures Boils, Burns, Cuts, Eczema, Tetter, Ring Worm and all skin diseases. A specific for blind, bleeding, itching, and protruding Piles. The original and genuine Witch Hazel Salve is made by E. C. DeWitt & Co., and sold by M. Rose.

DEATHS.

Miss Rosella Riddell, aged seventeen years, died at her father's home in this city Monday night of consumption. Burial on White Oak creek, Estill county Tuesday.

The Children's Favorite.

For Coughs, Croup, Whooping Cough, etc., One Minute Cough Cure is the children's favorite. This is because it contains no opiate, is perfectly harmless, taste good and cures. Sold by M. Rose.

John R. Charlesworth, formerly of the Lexington Democrat, is said to be negotiating for the purchase of the Jackson Hustler, in view of making it a semi-weekly and greatly improving the plant.

If in kind of bilious mood,
You wish an aid to digest food,
No other pill so good
As DeWitt's Little Early Risers.

The famous Little Pills EARLY RISERS cure Constipation, Sick Headache, Biliousness, etc. They never gripe nor sicken, but impart early rising energy. Good for either children or adults. Bob Moore, LaFayette, Ind., says: "No use talking, DeWitt's Little Early Risers do their work. All other pills I have used gripe and make me sick. DeWitt's Little Early Risers brought the long sought relief. They are perfect." Sold by M. Rose.

One Minute Cough Cure

The Right Kind.

If you want a wife, says Uncle Toby in Home and Farm, that won't rip, ravel or run down at the heel, get one that knows something and can talk something besides nonsense. And girls, the same advice is good for you. A boy who thinks he looks better behind a cigar than he does a mule in the cornfield will do—to let alone. And don't whatever you do, tie to a boy who calls his father "the old man," or his mother "the old woman." A boy or girl who has no more respect for their parents than that will not make a good husband or wife. If you want a good husband, "set your cap" for a boy who is kind to his mother.

Out With Nature.

Real life is the life of the country. The life of the hills and the plains is hand and hand with nature. Many city people who travel the superficial highways of artificial society, have an idea that the country is only for the production of corn and pork, and that the making of men is a task left to the cities. Perish the thought!

Naturally, the city attracts people because of the centered opportunities and advantages which are possible only in large communities. If he is to be every inch a man, he needs as a foundation, something that the artificialities of the city cannot supply; that something is a boyhood that instills into the soul the loves and longings of the fields and the woods; the yearnings and aspirations that are born of a life whose paths lead close to nature's confidences. There is a permeating, uplifting influence in a field of new mown hay; a freshly turned furrow, a flower-dotted meadow, through which a little busy brooklet, born of a pure bubbling spring, winds its search to some friendly river.

There is in all this a breadth, a purity, an ingeniousness that is impossible in city life, where everything is veneered with show and sham.

It is, therefore, an inspiring intoxication for the man whose avenues lead between skyscrapers and false fronts to get away from the shut-in, smoke-infested confines of the congested city.

There is a world of truth in Cowper's line:

"God made the country and man made the town."

Paris Green Kills Boy.

In Trigg county, as a result of eating apples without washing his hands after having been sprinkling paris green on tobacco plants, a son of Berry Hester is dead. He was taken suddenly ill soon after eating the apples and died before medical assistance could reach him.

If the South had a few big life and fire insurance companies it would not have to send so much money North and East to enrich the people of those sections. Well managed Southern life and fire companies ought to yield handsome returns on the investment.—Exchange.

TO THE PUBLIC.

I am pleased to announce that I am again able to be at my gallery ready to perform all classes of work in the Photographers line, and will appreciate any business given me.

JOHN W. HENRY.

A Good word is as soon said as an ill one.

Vaccinate Your Land.

Have you had your farm vaccinated? If not, you should proceed to have it done at once, says the Minneapolis Journal. Science has done a great deal for the farmers. It has killed the bugs and worms that prey on his crops; it has treated his animals when sick and saved their lives; it has experimented with seeds and raised the quality and quantity of their yields; it has done many things to help him achieve success.

The latest series of special interest which we have heard from is that of the process of inoculating sterile ground, and making it bring forth the fruit in an abundance is an easy task. Inoculation to prevent smallpox, diphtheria, rabies, etc., we knew about, but it is quite as mysterious as the inoculation of the old worn out soils to make them fertile.

Certain germs make for fertility of the soil. They are collected or generated by the department of agriculture, according to this veracious authority, and sent by mail in a small package, about like a yeast cake. The cake is said to contain millions of dried germs.

It is thrown into a barrel of pure water and turns it a milk white. Seeds of grain and grasses are washed with this water and when planted are said to produce wonderful results, even on what is regarded as exhausted soil. The land is really treated to an inoculation and cured of its disease of barrenness. Have your farm vaccinated and get rich from the big crops you will raise.

Complainers of Hard Luck.

A writer in Word and Works very truthfully says: "There are a great many people who complain of hard luck. They say that fates are against them, that all their undertakings go to the bad, that their neighbors succeed with little exertion, while they work hard and fail. They believe in good luck and bad luck, and will argue with you all day that success is largely a matter of chance. They cite you to Solomon, the wise man who said that the race is not to the swift nor the battle to the strong, but time and chance happen to them all, or words to that effect. There is no use arguing with the believers. They claim to have learned in the school of experience and they cite you to numerous examples. They are like the housewife who knew that there was something in planting potatoes on the dark or light of the moon, for she had tried both ways. When a man knows a thing of course you cannot convince him. But all ye hard luckers, come to book and be fair. Aren't you responsible, in a measure at least, for your yard luck? Isn't your hard luck due to your own laziness or your own neglect or your misdoings? Have you not come pretty near getting all that deserved? Hasn't the world given you all it owes you? Haven't you gotten value received for all that you have given?

These are searching questions and you are not expected to answer them to the general public, but answer them to your own conscience and be sure that it is honest. An honest confession even to yourself, is good for the soul, and such confession may help you to mend your ways and give yourself a better chance, and give the world a better chance

to reward you. Be fair with yourself and fair with the world. There is something in opportunity, but the man who gives the world a faithful and honest service will get fair compensation, luck or no luck. Be ever ready to work with willing hands and heart and do less complaining about hard luck.

"They Accept."

From an exchange we clip the following truthful note about a much practiced and a most deceitful habit. "There was a time when people secured positions, but now, in the vernacular of the press reporter, they always 'accept.' It matters not how long and hard the chase after the 'posish' and how much influential backing, when it is secured it is announced as an acceptance. It is certainly creditable to a person to seek and secure employment, whether it is digging in a ditch or running a big corporation, driving a cart or commercial traveling, and the 'accept' falsehood should be cut out."

A Texas editor has hit the right spot when he says: "The sorriest fellow on the earth is the fellow who will sit around and cuss his own town. If I lived astride the north pole I would call it home and be ready to boost it up. If I couldn't say anything nice about it, I would say my ice bill didn't come high. I would not stay in a town I had to cuss—not while the world is as big it is now."

Hottest Since '98.

Since our last issue, we have had some sizzling hot weather, the climax being reached Sunday afternoon when the thermometer rose to 102 in the shade. This is the hottest weather on record in Clay City since July 4, 1898, when it was 104 in the shade.

There is nothing more provoking than an incorrect time piece. If you have a watch or clock of this kind take it to Webb, Clay City's Jeweler and silver smith, and let him fix it. All work guaranteed.

The Institute.

The Powell County Teachers' Institute will be held the week, beginning July 17th with Prof. W. R. Eubank, of Midway as instructor. A number of teachers are urging Supt. Tracy to hold the institute in Clay City, and Mr. Tracy is considering the proposition. Besides conducting the institute in Powell this year, Prof. Eubank will be at Frenchburg on the same business the week beginning July 3rd; at Irvine, July 10th; Richmond, July 27th.

No Secret About It.

It is no secret, that for Cuts, Burns, Ulcers, Fever Sores, Sore Eyes, Boils, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at Swann-Day Lumber Co's store.

BILIOUSNESS AND CONSTIPATION CURED BY THE DRAUGHT BLACK-DRAUGHT

Because the liver is neglected people suffer with constipation, biliousness, headaches and fevers. Colds attack the lungs and contagious diseases take hold of the system. It is safe to say that if the liver were always kept in proper working order, illness would be almost unknown.

Thedford's Black-Draught is so successful in curing such sickness because it is without a rival as a liver regulator. This great family medicine is not a strong and drastic drug, but a mild and healthful laxative that cures constipation and may be taken by a mere child without possible harm.

The healthful action on the liver cures biliousness. It has an invigorating effect on the kidneys. Because the liver and kidneys do not work regularly, the poisonous acids along with the waste from the bowels get back into the blood and virulent contagion results.

Timely treatment with Thedford's Black-Draught removes the dangers which lurk in constipation, liver and kidney troubles, and will positively forestall the inroads of Bright's disease, for which disease in advanced stages there is no cure. Ask your dealer for a 50c. package of Thedford's Black-Draught.

Small Store

Small Expense Small Profits

OUR drug store is small but we carry a full stock of goods that meets every demand of our customers. It is of a quality that you do not find often in even the larger drug stores. Buyers here are absolutely sure that they are getting positively the best the market affords in every line of drug store goods. Because of our small store and small expense we are successful in competing with the big fellows who have big rents and big wages to pay. Our prices are so low and the merit of our goods so great that it will pay you to go out of your way to come here.

The following is one of our offers:

Constipated? Here is a Free Cure.

You have tried pills. You know by your own experience that a physic won't cure. Let experience show you what will cure.

Constipation is the rotting of undigested food in the alimentary tube. This festering, rotting mass makes bad blood, which makes bad health. Constipation causes most sickness. It probably causes your suffering.

Mull's Grape Tonic cures. It is not a physic or like anything else you have ever used. It is a tonic containing special properties of the grape which strengthens the digestive organs and enables them to do their work unaided and properly. No griping. If it fails, your money will be returned.

We know that Mull's Grape Tonic will cure you and, therefore, will give you a large sample bottle of the great remedy, if you have never taken it. We only ask that you use the contents of the first bottle as directed. You don't oblige yourself to buy any of the remedy.

FREE COUPON

Send this coupon with your name and address and druggist's name, for a free bottle of Mull's Grape Tonic to Mull's Grape Tonic Co., 600 Third Ave., Rock Island, Ill.

Give Full Address and Write Plainly. The \$1.00 bottle contains nearly three times the 50c. size.

This is one way we have of serving our customers. We are looking out for your interests as well as our own. Who else will do as much? COME AND SEE US.
